

Declaration of AI Usage

Project Name: **AI Memory Manager**
Team Name: **HalluciNot**
Participants Name: **Tanmayee Gaonkar, Veerbhadra Mahant, Shruti Jahagirdar,Ved Dhapodkar**

1. AI Usage Declaration
[Y] YES: We used AI tools during the development of this project.

2. Details of AI Usage (Complete only if you selected "YES")
● Tools Used: Claude Code, Antigravity IDE, Google Stich
● How they were used:
Claude Code: Used as a coding and development assistant for generating, modifying, debugging, and explaining code during frontend and backend development.
Antigravity IDE: Used as an AI-assisted development environment for implementing features, navigating the existing codebase, troubleshooting issues, and refining the application UI.
Google Stitch: Used for UI/UX design exploration, generating interface concepts, and exploring visual layouts for the memory manager, graph, and related application screens.
AI tools were used as assistive tools rather than as independent decision-makers. The project team reviewed, modified, tested, and validated AI-assisted outputs and retained responsibility for the final design, implementation, and project decisions.

3. Confirmation
By giving our names & signatures below, we confirm that the information provided is truthful
and accurate to the best of our knowledge.

Declared By (Names & Signatures):
1. Tanmayee Gaonkar
2. Veerbhadra Mahant
3. Shruti Jahagirdar
4. Ved Dhapodkar
